CLAS Speakers Committee

What do we do?

Our main role is to supervise and promote an accurate and broad dissemination of results to the scientific community by talks from members of the CLAS Collaboration.

- **Compile** a list of conferences
- **Promote** invitations to organizers –Table of topics suggested to conference organizers

  Conferences contacted for 2027: Bormio2027
- **Assign** invited talks to appropriate CLAS speakers – In collaboration with the PWG chairs
- **Review** conference proceedings within a one-week timeframe

What do we do?

Our main role is to supervise and promote an accurate and broad dissemination of results to the scientific community by talks from members of the CLAS Collaboration.

- **Collect** speakers request and notifications and approve them on a weekly basis

- **Check** past conference websites for not notified/approved CLAS-related talks
  - **Stimulate** post-submission notification/request
  - **Update** DB with unnotified/not approved talks

CLAS Speakers Committee

Who are we?

Representatives

Susan Shadmand – Hadron Spectroscopy
Mohammad Hattawy – Deep processes
Taisiya Mineeva– Nuclear Physics
Pierre Chatagnon – Software
Ahmed El Alaoui– At large 1
Holly Szumila-Vance– At large 2

Alternates

Lucilla Lanza– Hadron Spectroscopy
Adam Hobart– Deep processes
Michael Wood – Nuclear Physics
Stuart Fegan – Software
Alessandra Filippi – At large 1
Noémie Pilleux– At large 2

CLAS Speakers Committee

What are your responsibilities as a CLAS members?

- All Invited talks need to be Approved by the CSC committee
- CLAS Members need to Notify CSC for Contributed talks, for Invited seminars, or Posters
- For General talks in which 50% of the slides or less are CLAS related members are encouraged to Notify CSC
- All Proceedings need to be submitted to CSC for review and approval at least 1 week before the submission deadline

Issues with DB

During the 2026 the CSC Database has been affected by several issues:

- The CSC Database has been unavailable for approximately one month during which CLAS **members were unable to submit notification or approval requests.** Thank you, Nathan, for fixing it.
- Contributions that were not recorded during the outage have been **added by the CSC**
- Currently talks submitted by speakers do not appear as pending requests, so Pierre Chatagnon, the CSC secretary, **must manually add** each request to the database.
- During last weeks the CSC DB is showing another issue, **the connection often fails** and and we have to reload the page multiple times
- We have notified the issues and we are looking for a solution

How can you help us?

- If you are informed of an upcoming conference or workshop please let us know
- PIs who are willing to promote young scientist contact CSC with name and topics
- Young scientists are also welcome to nominate themselves
- If you are encountering issues with the shiftbot database contact the shiftbot administrator
- Contact us (csc@jlab.org) directly for any other issues, concerns, or recommendations

Wiki page

Main Page

Overview | Procedures/Forms | Database | Statistics | Topics & Speakers | Conferences | Committee [edit]

The role of the CLAS Speakers Committee (CSC) is to supervise and promote the accurate and broad dissemination of results to the scientific community by talks from members of the CLAS Collaboration.

The CSC is appointed by the CLAS Coordinating Committee for this purpose. The organization and responsibilities of the CSC are described in details in the CLAS Charter and/or Bylaws.

Each CLAS collaborator willing to give a talk at any scientific events MUST follow the standard procedure described on the Procedures/Forms tab to contribute in accomplishing CSC duties and achieving the mentioned goals.

You can navigate through this page by clicking on the tabs above.

NB: Outdated CSC wiki-page can be accessed in this aged_link.

Upcoming Conferences

Conference	Date / Location
2026	
Correlations in Partonic and Hadronic Interactions 2026	December 14-18, 2026 / Frascati, Italy

Conference	Date / Location
2027	
HEPNP2027	January 18 – January 22, 2027 / Valparaíso, Chile
Bormio2027	January 25 – January 29, 2027 / Bormio, Italy
WNPPC2027	February 11 – February 14, 2027 / Bromont, Québec Canada
GHP2027	April 9 – April 11, 2027 / Atlanta (GA), USA
APS April Meeting / Global Summit	April 12 – April 16, 2027 / Atlanta (GA), USA

CLAS Speakers Committee

If you are a CLAS member and you present
as little as 1 or 2 slides on CLAS data

PLEASE NOTIFY CSC ABOUT YOUR TALK
