

CLAS Speakers Committee

What do we do?

Our main role is to supervise and promote an accurate and broad dissemination of results to the scientific community by talks from members of the CLAS Collaboration.

- **Compile** a list of conferences
- **Promote** invitations to organizers –Table of topics suggested to conference organizers

Conferences contacted for 2026: DIS2026, MESON2026

- **Assign** invited talks to appropriate CLAS speakers – In collaboration with the PWG chairs
- **Review** conference proceedings within a one-week timeframe

What do we do?

Our main role is to supervise and promote an accurate and broad dissemination of results to the scientific community by talks from members of the CLAS Collaboration.

- **Collect** speakers request and notifications and approve them on a weekly basis
- **Check** past conference websites for not notified/approved CLAS-related talks
 - **Stimulate** post-submission notification/request
 - **Update** DB with unnotified/not approved talks

CLAS Speakers Committee

What are your responsibilities as a CLAS members?

- All **Invited** talks need to be **Approved** by the CSC committee
- CLAS Members need to **Notify** CSC for **Contributed** talks, for **Invited seminars**, or **Posters**
- For **General** talks in which 50% of the slides or less are CLAS related members are encouraged to **Notify** CSC
- All **Proceedings** need to be submitted to CSC for review and approval at least 1 week before the submission deadline

Issues with DB

- As you may have noticed, the CSC Database has been unavailable for approximately one month. During this period, contributions could not be displayed and, more importantly, CLAS **members were unable to submit notification or approval requests.**
- Although some CLAS members sent their materials directly to us, a significant amount of information **was not recorded** during this downtime.
- Thanks to the efforts of the Software Group, especially Nathan Baltzell, who identified and resolved the issue, **the database is now fully operational.** Users can once again view submitted contributions and submit notification and approval requests.
- Unfortunately, a new issue is currently affecting the CSC side of the database. Talks submitted by speakers do not appear as pending requests, so Pierre Chatagnon, the CSC secretary, **must manually add** each request to the database.

Issues with DB

- A possible clue to the origin of this problem may be provided by the following **error message**:

ERROR 1265: MySQL response to "INSERT INTO speakers (name, exp, conference, type, title, pwg, clas12, PDF, proceedings, history, status, notes) VALUES ("Pierre Chatagnon", "5", "921", "Invited", "TEST TEST TEST TEST TEST TEST TEST TEST TEST TEST TEST TEST TEST TEST TEST TEST", "", "1", "", "", "Invited", "C&C notified", "TEST TEST TEST TEST TEST TEST")" was "Data truncated for column 'pwg' at row 1" !

Sorry, something went wrong. Please report the above MySQL errors

No notification sent.

- As a consequence of these issues, contributions that were not recorded during the outage will likely be **added over the coming months**, once all database problems have been resolved, following the usual **late-notification** procedure.

How can you help us?

- If you are informed of an upcoming conference or workshop please let us know
- PIs who are willing to promote young scientist contact CSC with name and topics
- Young scientists are also welcome to nominate themselves
- If you are encountering issues with the shiftbot database contact the shiftbot administrator
- Contact us (csc@jlab.org) directly for any other issues, concerns, or recommendations

[edit]

The role of the CLAS Speakers Committee (CSC) is to supervise and promote the accurate and broad dissemination of results to the scientific community by talks from members of the CLAS Collaboration.

The CSC is appointed by the CLAS Coordinating Committee for this purpose. The organization and responsibilities of the CSC are described in details in the [CLAS Charter](#)  and/or [Bylaws](#) .

Each CLAS collaborator willing to give a talk at any scientific events MUST follow the standard procedure described on the [Procedures/Forms](#) tab to contribute in accomplishing CSC duties and achieving the mentioned goals.

You can navigate through this page by clicking on the tabs above.

NB: Outdated CSC wiki-page can be accessed in this [aged_link](#) .
