

Tesla Technology

Collaboration

Jefferson Lab
Newport News, VA, USA
January 26 – 29, 2027

The mission of the TESLA Technology Collaboration (TTC) is to advance superconducting RF (SRF) accelerator R & D and related accelerator studies across the broad diversity of scientific applications, and to keep open and provide a bridge for communication and sharing of ideas, developments and testing across associated projects.

To this end, the collaboration supports and encourages free and open exchange of scientific and technical knowledge, expertise, engineering designs and equipment.

Local Organizing

Committee Members

Rongli Geng- LOC Chair
Pashupati Dhakal
Gianluigi Ciovati
Uttar Pudasaini
Eric Lechner
Zeynep Ceribasi

Scientific Program Committee

Robert Laxdal (TRIUMF), TTC Chair
Detlef Reschke (DESY), SPC Co-chair
Hiroshi Sakai (KEK), SPC Co-chair
Anne Marie Valente-Feliciano (TJNAF),
Deputy TTC Chair
Akira Yamamoto (CERN/KEK)
Catherine Madec (CEA)
Eiji Kako (KEK)
Hans Weise (DESY)
Jie Gao (IHEP)
Michiru Nishiwaki (KEK)
Rongli Geng (TJNAF)
Sebastian Aderhold (SLAC)
Sergey Belomestnykh (FNAL)

Protocol Office (Jefferson Lab)

Jennifer Carter
Sarah Crouse
Nina Ullrich
