

# Collaboration Meeting

March 28-31, 2017

# Report on CCC Meeting

- The current straw-man schedule Volker showed in his Hall B status report was discussed. To get more feedback from the Collaboration a BlueJeans meeting will be organized in about six weeks with the run group leaders to discuss the constraints on beamtime.
- Following the guidance in the Common Tools report, we will form a First Experiment Analysis Review to focus on the specific needs of the fall run. See the site below for the report.

- The CCC approved the application of the Geissen group to become a CLAS institute.
- Summer CLAS Collaboration meeting dates: June 13-16 tentatively (Tuesday-Friday). Let me know if these dates create any problems.
- A nominating committee will soon be formed to generate a slate of candidates for the CLAS chair election at the next Collaboration meeting.

# Timeline for PAC45 Proposal Reviews

- PAC45 considering new run-group and parallel-running proposals. Will be held week of July 10.
