

# 7th Workshop of the APS Topical Group on Hadronic Physics

## Thursday, February 2, 2017

### Production and Decays III - Hoover (11:00 AM - 12:40 PM)

-Conveners: Johann Marton

time	[id] title	presenter
11:00 AM	[7] First Measurements of Timelike Form Factors of Lambda, Sigma, Cascade, and Omega Hyperons at $ Q^2  = 14 \text{ GeV}^2$ , and Evidence for Diquark Correlations	Prof. SETH, Kamal
11:25 AM	[55] Studying time-like electromagnetic baryonic transitions with HADES	RAMSTEIN, Beatrice
11:45 AM	[26] Observation of Transverse Lambda Polarization in $e^+e^-$ Annihilation at Belle	Dr VOSEN, Anselm
12:05 PM	[93] Unitarized amplitudes for diffractive production of three pion resonances	Mr JACKURA, Andrew
12:25 PM	[82] Multiplicities in $pp$ Collisions at $\sqrt{s} = 13 \text{ TeV}$ with Different MC Models	ALGHAEER, Khadeejah
