

7th Workshop of the APS Topical Group on Hadronic Physics

Friday, February 3, 2017

TMDs, Spin, SCET - Hoover (9:00 AM - 10:40 AM)

-Conveners: Markus Dieffenthaler

time	[id] title	presenter
9:00 AM	[31] Phenomenological constraints on transverse single-spin asymmetries from Lorentz invariance relations	PITONYAK, Daniel
9:25 AM	[16] Scale evolution equations for transverse momentum weighted TMD functions.	Dr YOSHIDA, Shinsuke
9:50 AM	[52] Parton Orbital Angular Momentum: Experimental Leads	Prof. LIUTI, Simonetta
10:15 AM	[92] Universal Transverse Momentum Dependent Fragmentation in Jets	Dr NEILL, Duff
