

2nd Workshop on The Proton Mass; At the Heart of Most Visible Matter

Tuesday, April 4, 2017

Threshold production of quarkonia J/Psi, phi - Conference room (2:30 PM - 4:00 PM)

-Conveners: Kawtar Hafidi

time	[id] title	presenter
2:30 PM	[16] Early results from the GlueX experiment	Dr CHUDAKOV, Eugene
3:00 PM	[17] J/psi production at threshold at JLab (Hall A, B)	Dr CHEN, Jian-Ping
3:30 PM	[18] Accessing the real part of the amplitudes of the forward scatterings of J/psi and phi mesons off the proton from photoproduction on proton around threshold	Mr GRYNIUK, Oleksii

Threshold production of quarkonia J/Psi, phi - Conference room (4:30 PM - 6:00 PM)

-Conveners: Kawtar Hafidi

time	[id] title	presenter
4:30 PM	[19] Charmed pentaquark calculation Quarkonium nucleus bound states with lattice	Prof. LIN, Huey-Wen
5:00 PM	[20] Novel physics with tensor polarized targets	Prof. SLIFER, Karl
5:30 PM	[21] Discussion
