

# Discussion

Carlos Muñoz Camacho

Institut de Physique Nucléaire, Orsay, IN2P3/CNRS

DVCS Collaboration Meeting  
January 16–17, 2017

# Data analysis

- Beam line
  - Polarimetry (Møller) data (**FINISHED**)
  - Beam charge monitors (BCM) calibration (**FINISHED**)
- HRS
  - Optics (**FINISHED**)
  - Drift chambers time offsets (**Easy to do**)
- Calorimeter
  - Elastic (energy) calibrations (**FINISHED**)
  - Waveform analysis of PMT pulses
  - Time (calorimeter + HRS) corrections (**FINISHED?**)
  - Clustering and calibration optimizations
- MC simulation
  - GEANT4 written (**FINISHED**)

# TODO: Physics analysis

Mongi's table

# Meetings other ways of communication

- $\sim 1$ h weekly phone meetings (Tues morning EST)
- ELOG
- Mailing list
- Collaboration meeting once a year (usually at JLab)

# Other/additional ways... (to be discussed)

- More frequent/longer phone meetings
- Better organized phone meetings (scheduled talks, etc)
- More often collaboration/analysis meetings (every 3–4 months)
