

7th SRF Materials Workshop

Tuesday, July 17, 2012

Session 4b - Processing advances (cont.) - CEBAF Center F113 (8:30 AM - 10:30 AM)

-Conveners: Charles Reece

time	[id] title	presenter
8:45 AM	[48] Evaluations of mechanical polishing for "baseline" and "acid free" processing	COOPER, Charlie
9:00 AM	[29] Direct observation of hydrides in cavity-grade niobium	ROMANENKO, Alexander
9:15 AM	[47] Genesis of topography by buffered chemical polishing of niobium	ZHAO, Liang
9:30 AM	[30] Recent progress with VEP at Cornell	FURUTA, Fumio
9:45 AM	[46] Development of Plasma Processing Technologies for SRF Cavities	UPADHYAY, Janardan
10:00 AM	[52] Discussion - Processing progress
