

5th International Workshop on "Thin films applied to Superconducting RF and new ideas for pushing the limits of RF Superconductivity"

Wednesday, July 18, 2012

Session We3: Nb Films via Energetic Condensation - F113 (1:30 PM - 3:00 PM)

-Conveners: Larry Phillips

time	[id] title	presenter
1:30 PM	[9] Nb films produced by Energetic Condensation via ECR	VALENTE-FELICIANO, Anne-Marie
2:00 PM	[10] Understanding of growth mechanism of high RRR Nb films on MgO substrate	SUNG, Zuhawn
2:30 PM	[11] Superconducting Nb thin film coatings to decrease impedance of unshielded accelerator bellows	COLT, James
