

5th International Workshop on "Thin films applied to Superconducting RF and new ideas for pushing the limits of RF Superconductivity"

Wednesday, July 18, 2012

Session We2: Nb films via Energetic condensation - F113 (11:30 AM - 12:30 PM)

-Conveners: Mahadevan Krishnan

| time | [id] title | presenter |
|----------|--|---------------------|
| 11:30 AM | [7] Niobium coatings for SRF cavities produced by high power impulse magnetron sputtering | MENDELSBERG, Rueben |
| 12:00 PM | [8] Strong localization of ionization in high power impulse magnetron sputtering: An enabling route to niobium plasma coatings of SRF cavities | ANDERS, André |
