

5th International Workshop on "Thin films applied to Superconducting RF and new ideas for pushing the limits of RF Superconductivity"

Thursday, July 19, 2012

Session Th1: Materials other than Nb and Multilayers - F113 (8:30 AM - 10:00 AM)

-Conveners: Anne-Marie Valente-Feliciano

time	[id] title	presenter
8:30 AM	[16] Niobium Nitride Thin Films for Superconducting Radio Frequency Cavities	ROACH, William
9:00 AM	[17] HIGH TEMPERATURE METATHESIS FOR THE PREPARATION OF Nb ₃ GaAl SUPERCONDUCTORS	PALMIERI, Enzo
9:30 AM	[18] Improvement of multilayer film growth for accelerator cavity by ECR deposition	FEI, Jiao
