

# 5th International Workshop on "Thin films applied to Superconducting RF and new ideas for pushing the limits of RF Superconductivity"

## Wednesday, July 18, 2012

### Session We4: Materials other than Nb and Multilayers - A15 & MgB2 - F113 (4:00 PM - 6:00 PM)

time	[id] title	presenter
4:00 PM	[13] MgB2 Thin Films for SRF Cavities	XIAOXING, Xi
4:30 PM	[14] MgB2 Thin Films for SRF and Microwave Electronic Applications	OATES, Daniel
5:00 PM	[15] Thickness dependence of superconducting properties in MgB2 thin films	BERINGER, Douglas
5:30 PM	[12] Composite thin film superconductors for SRF applications grown using energetic condensation	KRISHNAN, Mahadevan
