

5th International Workshop on "Thin films applied to Superconducting RF and new ideas for pushing the limits of RF Superconductivity"

Thursday, July 19, 2012

Session Th3: RF Performance, Material Analyses & Theory - F113 (2:00 PM - 3:30 PM)

-Conveners: Charles Reece

time	[id] title	presenter
2:00 PM	[23] Sample testing with the Quadrupole Resonator - A way to obtain RF results over a wide parameter range	AULL, Sarah
2:30 PM	[24] TE cavity developments at Cornell University	XIE, Yi
3:00 PM	[25] Evaluation of SRF thin film properties using a microstrip disk resonator	BOWRING, Daniel
