

Light Cone 2018

Wednesday 16 May 2018

G - Auditorium (10:40-12:20)

-Conveners: Matthias Burkardt

time	[id] title	presenter
10:40	[79] The proton charge radius and the PRad experiment	GAO, Haiyan
11:05	[80] Orbital angular momentum in the nucleon's chiral periphery	Dr GRANADOS, Carlos
11:30	[81] Parton distributions from nonlocal chiral SU(3) effective theory	WANG, P.
11:55	[83] Timelike form factors on the light front	CHOI, H.-M.

Friday 18 May 2018

G - Auditorium (14:00-15:40)

-Conveners: Raul Briceno

time	[id] title	presenter
14:00	[103] Baryon spectroscopy and structure with functional methods	EICHMANN, G.
14:25	[104] Mesons as relativistic bound states in a Minkowski-space approach	LEITAO, S.
14:50	[102] Few-nucleon systems from lattice QCD	DETMOLD, William
15:15	[105] New developments in nuclear lattice simulations	LEE, D.
