

CLAS Collaboration Meeting

June 18-21, 2019

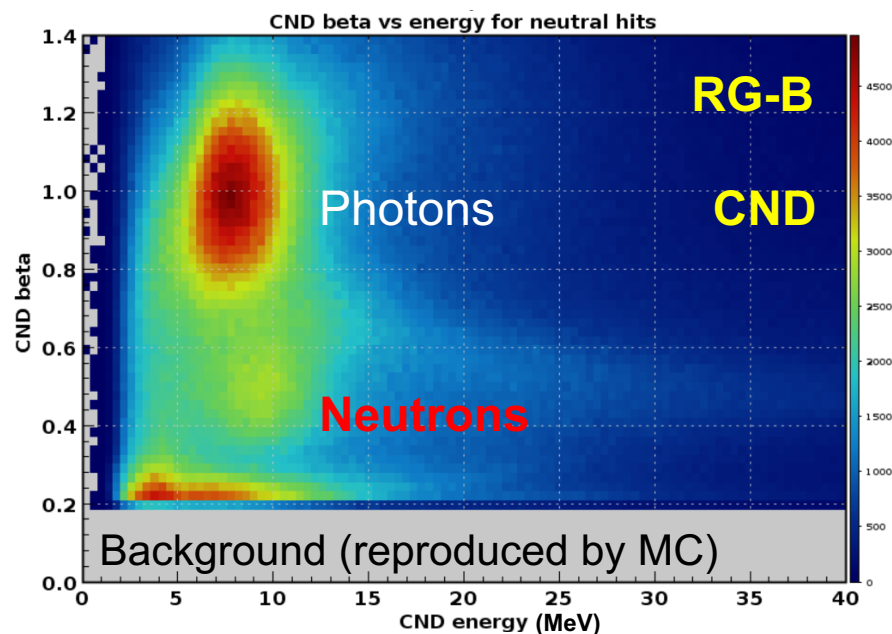

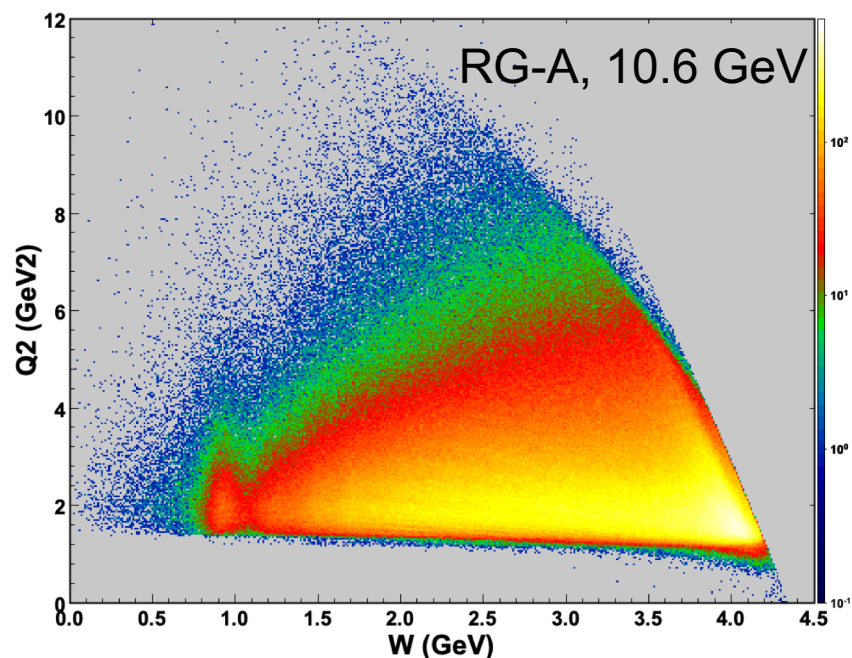

Outline

- Events since last meeting
- PAC47
- Collaboration business:
 - Vote on authorship rules
 - Charter change on software group
 - Collaboration Chair election
- New CLAS publications
- From JLab User Organization
- Meeting agenda

Since the last meeting...

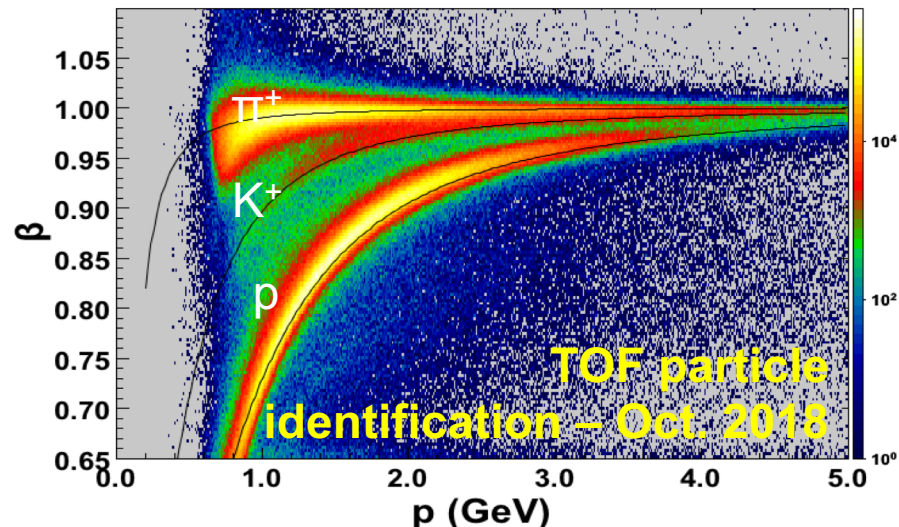

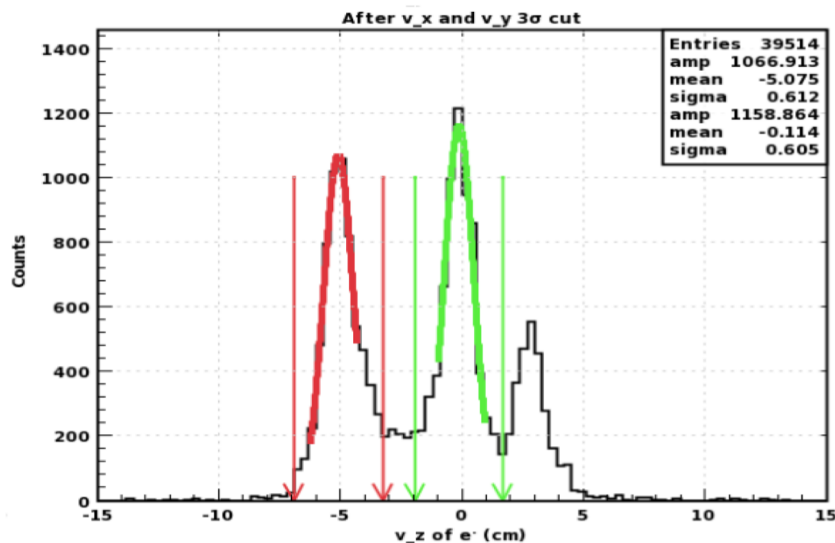

- Completed first RG-B run (~84 mC, ~24% of approved beam time) and third portion of RG-A run (total of ~280 mC, ~50% of approved beam time)
- Preparations for data processing continued (RG-A decoding)

- Important progress on CLAS12 offline software, reconstruction, calibration, alignment, ... in preparation for first massive data processing
- Pilot processing of RG-A data in progress

Reconstruction and data quality

- Progress on calibration/reconstruction for all subsystems:
 - Forward tracker vertex resolution close to specs
 - Significant improvement to PID (TOF)
 - ...
- Still work to do but getting ready for pass1!

PAC47

- PAC meeting on July 29 – August 2, 2019
- Considering new proposals and run-group additions
- CLAS12:
 - One proposal requesting new beam time:
 - H. Gao et al, “*Search for a $\phi - N$ Bound State from ϕ Production in a Nuclear Medium*”
 - Two run-group additions:
 - RG-B, F. Hauenstein et al., “*Quasi-real Photoproduction of Hadrons on Deuterium*”
 - RG-F (BONUS12), M. Hattawy et al., “*Tagged Neutron DVCS with BONuS12 in CLAS12*”
 - One LOL:
 - O. Hen et al., “*Next Generation Tritium Experiments in CLAS12*”
- Presentations during the PWG Joint session and the plenary session on Friday morning

Authorship of CLAS12 papers

- Discussion on revision of rules on author list composition for CLAS12 papers at November and March meeting:
 - Leading author or pure alphabetical order
- Electronic vote in April to choose between the following options for CLAS12 papers, while rules for papers on 6 GeV data will remain unchanged :
 1. maintain the current rules that establish that the list of authors is to be alphabetical from A to Z, with the leading authors listed first, but limit the number of leading authors to be less than 5 with the possibility of exceptions for special cases that would need to be properly motivated by the leading authors and would be judged on by the Coordinating Committee
 2. adopt a pure alphabetical order from A to Z, which is a common policy of large collaborations
- Option 1 (leading authors with limit to number <5) was selected based on the vote of the Collaboration
- Bylaws at https://www.jlab.org/Hall-B/secure/claschair/CBdocs/Bylaws_of_the_CLAS_Collaboration_Apr2019.pdf updated

Software in the CLAS Collaboration

Proposed charter change:

- Software Working Group (SWG) constituted on the same level as the current three physics working groups
- All CLAS collaborators may be associated with this new group by opting in
- The SWG will elect its chair, the Software Coordinator, who will be part of the CLAS Coordinating Committee (CCC)
- *Text available at: https://www.jlab.org/Hall-B/secure/claschair/software/swg_change*

Vote on the charter change open from June 10 to June 20 (till 23:59 EDT of Thursday):

- If change approved:
 - proceed to establish the membership of the SWG
 - Proceed with the election of the SWG Chair in the summer to have the Software Coordinator in place by September 1st

Chair election

- Election for new Collaboration Chair currently open
- Candidates: **William Briscoe** and **Kyungseon Joo**
- Candidates statements available on the vote page at <https://clasweb.jlab.org/membership/phonebook.php> (JLab CUE login required)
- Presentations in today morning plenary session
- Election, open to all full and term members, will close at 23:59 on Thursday, 20 June, and results announced in Friday morning plenary session
- Many thanks to the nominating committee!

Announcements

- Michael Wood in charge of maintaining the CLAS/CLAS12 thesis database
- Mike substitutes Reinhard Schumacher who has been responsible for this task for many years

Many thanks to Reinhard !!!

From the CLAS Charter

6. THESES

- When a part of the CLAS or CLAS12 activity is to become the thesis work of a student, the student's thesis advisor will so inform the Chairperson of the Coordinating Committee in writing. The Chairperson, or a delegate, will maintain a list of active thesis projects.

New CLAS papers

- 2 new papers accepted by the target journal since last Collaboration Meeting

Paper ID	Paper Title	Lead Author	Contact Person	Target Journal
2018-11	Direct Observation of Proton-Neutron Short-Range Correlation Dominance in Heavy Nuclei	M. Duer	O. Hen	PRL
2018-14	First exclusive Deeply Virtual Compton Scattering measurement off bound nucleon in ^4He	M. Hattawy	M. Hattawy	PRL

- 2 papers submitted to the journal
- 4 papers in different review phases

Papers in the pipe...

Submitted to the Journal

Paper ID	Paper Title	Lead Author	Contact Person	Target Journal
2018-12	Toward a Complete Experiment in omega Photoproduction on the Proton: Measurement of the Double-Polarization Observables F_{\dots}	P. Roy	V. Crede	PRL
2018-13	Measurement of Nuclear Transparency Ratios for Protons and Neutrons	M. Duer	O. Hen	PRL

In review

Paper Title	Lead Author	Contact Person	Run Group
Study of Color Transparency in p^0 Electroproduction off Nuclei	L. El Fassi	L. El Fassi	eg2
Exclusive $\pi^0 p$ electroproduction off protons in resonance region at photon virtualities $0.4 < Q^2 < 1 \text{ GeV}^2$	N. Markov	K. Joo	e1f
Exploring the Structure of the Proton via Semi-inclusive Pion Electroproduction	N. Harrison	K. Joo	e1f
Probing the strong nuclear interaction at neutron-star densities	A. Schmidt	O. Hen	eg2

Meeting Agenda

- Morning talks dedicated to Hall B, Lab and Accelerator status
- Chair candidates presentations
- Software session this afternoon
- CLAS12 sessions tomorrow
- Physics WG parallel session and Joined session on CLAS12 analysis
- Proposal presentations Thursday and Friday
- Student and post-doc lunch meeting today
- Membership Committee meeting over lunch break tomorrow
- Software workshop on Friday afternoon
- Reception tonight!
