Dear Colleagues,

I approve proceeding to beam authorization.

Best wishes,
Camille

Subject: RE: UPDATE: Isotope Accelerator Safety Experiment Readiness Review - Beam Authorization Request

Dear All,

I am fine with proceeding to issue the beam authorization.

Thank you,
Andrei

Subject: UPDATE: Isotope Accelerator Safety Experiment Readiness Review - Beam Authorization Request

Camille and Andrei,

With the verification complete on the LERF Isotope beamline songsheets with signatures, this last outstanding item from the Accelerator Safety Experiment Readiness Review has been satisfied.

All requisite documentation and supplemental user information are accounted for and beamline equipment and shielding has been verified as installed and ready for testing with beam.

Authorization for beam is now being requested from you and I see no impediment to this request.

If you have any questions or concerns, please feel free to contact me.

Sincerely,

--

Harry Fanning
