

# PAC48 Jeopardy Closeout

**Note: Results will be added to the existing PAC report document, should be available soon.**

Markus Diehl  
25 September 2020

# Results

Experiment	Keywords	Recommendation
E12-12-002	GlueX II and Eta Factory	maintain status
E12-13-008	Pion polarizability	maintain status
RG A	Polarized e- on unpolarized H	maintain status
RG B	Deuterium target	maintain status
RG C	Longitudinally polarized target	approve for 120 days, then return to PAC
RG D	Color transparency	approve 30 days
RG E	Quark propagation	maintain status (see report)
RG G	EMC Effect in Nuclei	new grade A- (previously B+)
RG H	Transversely polarized target	maintain status
RG I	Heavy Photon Search	maintain status
RG K	Low-energy runs	maintain status

# Thanks to

- all spokespersons and collaborations
- all PAC reviewers and Kent Paschke (JLUO Chair)
- Jlab management and scientists  
especially Bob McKeown, Rolf Ent, Patrizia Rossi,  
and all those who provided the TAC theory reports
- Susan Brown, Pat Stroop, and Lorelei Carlson
