

# 9th Workshop of the APS Topical Group on Hadronic Physics

## Wednesday, April 14, 2021

### TMDs and SIDIS (1:30 PM - 3:30 PM)

-Conveners: Alexei Prokudin

time	[id] title	presenter
1:30 PM	[296] Ultraviolet behavior, renormalization, and integrated TMD observables	ROGERS, Ted
1:50 PM	[68] Electron-Ion Collider impact study on the tensor charge from a QCD global analysis of single transverse-spin asymmetries	KANG, Zhongbo
2:10 PM	[148] Factorized approach to radiative corrections for inelastic lepton-hadron collisions	SATO, Nobuo
2:30 PM	[156] Study of unpolarized TMDs in SIDIS	BISSOLOTTI, Chiara
2:50 PM	[86] Final HERMES results on azimuthal single- and double-spin asymmetries in SIDIS off transversely polarized protons	DIEFENTHALER, Markus
3:10 PM	Coffee/Discussion
