

# SRC EMC Workshop

## Thursday, March 25, 2021

### Thursday Afternoon Session Chairs: (1:00 PM - 4:40 PM)

-Conveners: **Diego Lonardoni; Alexander Jentsch**

| time    | [id] title   | presenter             |
|---------|--|-----------------------|
| 1:00 PM | [68] Spectral Function Approach in Describing Valence Quarks in the Nucleon and Nuclei                       | SARGSIAN, Misak       |
| 1:25 PM | [33] Transport calculations of FSI in nucleon knockout [20+5] (Natalie Wright)                               |                       |
| 1:50 PM | [34] Light Nuclei (e,e'N)  | SZUMILA-VANCE, Holly  |
| 2:15 PM | [35] Isospin dependence of NN correlations, quenching of spectroscopic factors, and some speculations [20+5] | MACCHIAVELLI, Augusto |
| 2:40 PM | Coffee Break   |                       |
| 2:50 PM | [67] GCF and the BeAGLE simulation code (20+5)   | BAKER, Mark           |
| 3:15 PM | [36] Tritium (e,e')  | LI, Shujie            |
| 3:40 PM | [69] Tagging with Tensor Polarized Deuteron (20+5)   | COSYN, Wim            |
| 4:05 PM | [72] FLASH TALK: Extraction of Nuclear Properties from Semi-Inclusive Data using GCF (10+2) (Alex Kiral)     |                       |
| 4:15 PM | [37] Discussion  |                       |
