

# The Future of Color Transparency and Hadronization Studies at Jefferson Lab and Beyond

## Monday, June 7, 2021

**Session 4: Chair: M. Sargsian (4:00 PM - 5:20 PM)**

time	[id] title	presenter
4:00 PM	[11] Soft and hard aspects of QCD dynamics in hadronic form factors.	RADYUSHKIN, Anatoly
4:30 PM	[12] Hadronization studies with CLAS	ARRATIA, Miguel
5:00 PM	[13] Studying Color Transparency through backward $\pi^0$ electroproduction off nuclear target	LI, Bill HUBER, Garth

# Tuesday, June 8, 2021

**Session 4: Chair: W. Cosyn (4:00 PM - 5:20 PM)**

time	[id] title	presenter
4:00 PM	[23] Nucleon re-scattering in $D(e,e'p)n$ : Observations and Possibilities	BOEGLIN, Werner
4:30 PM	[24] Nuclear Transparency Measurements in large-angle quasi-elastic $A(p,2p)$ scattering at BNL	MARDOR, Israel
5:00 PM	[25] Color Transparency in Dirty Kinematics	HIGINBOTHAM, Douglas
