ALICE SAMS System

Usage statistics

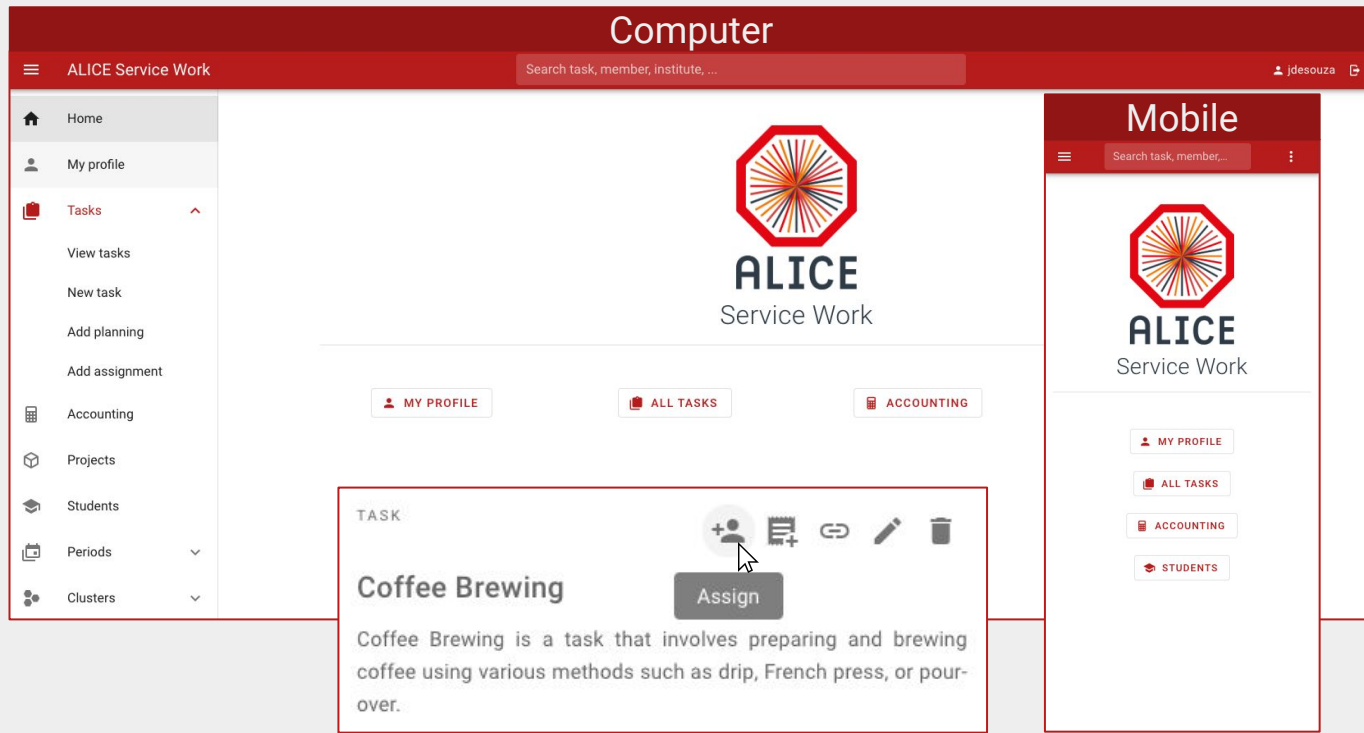

**ALICE**  
Service Work

- ★ 1014 Members
- ★ 388 Tasks
- ★ 154 Institutions
- ★ 40 Countries
- ★ 29 Projects

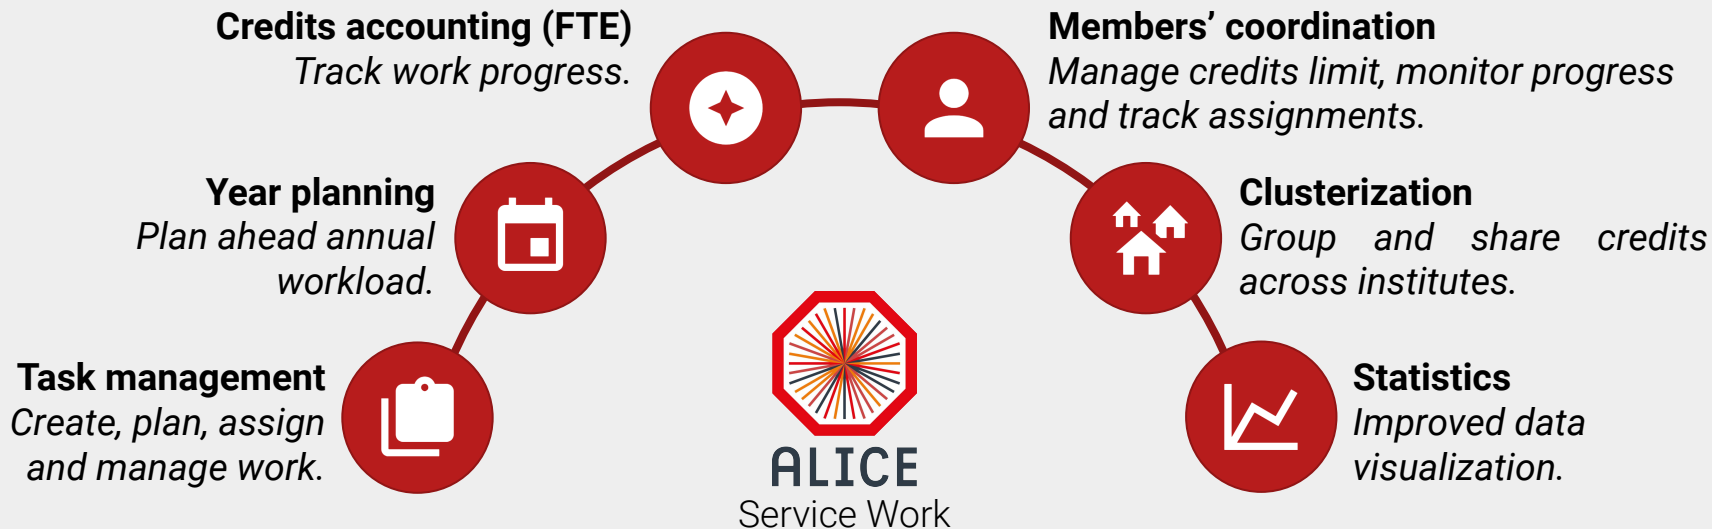

# Design

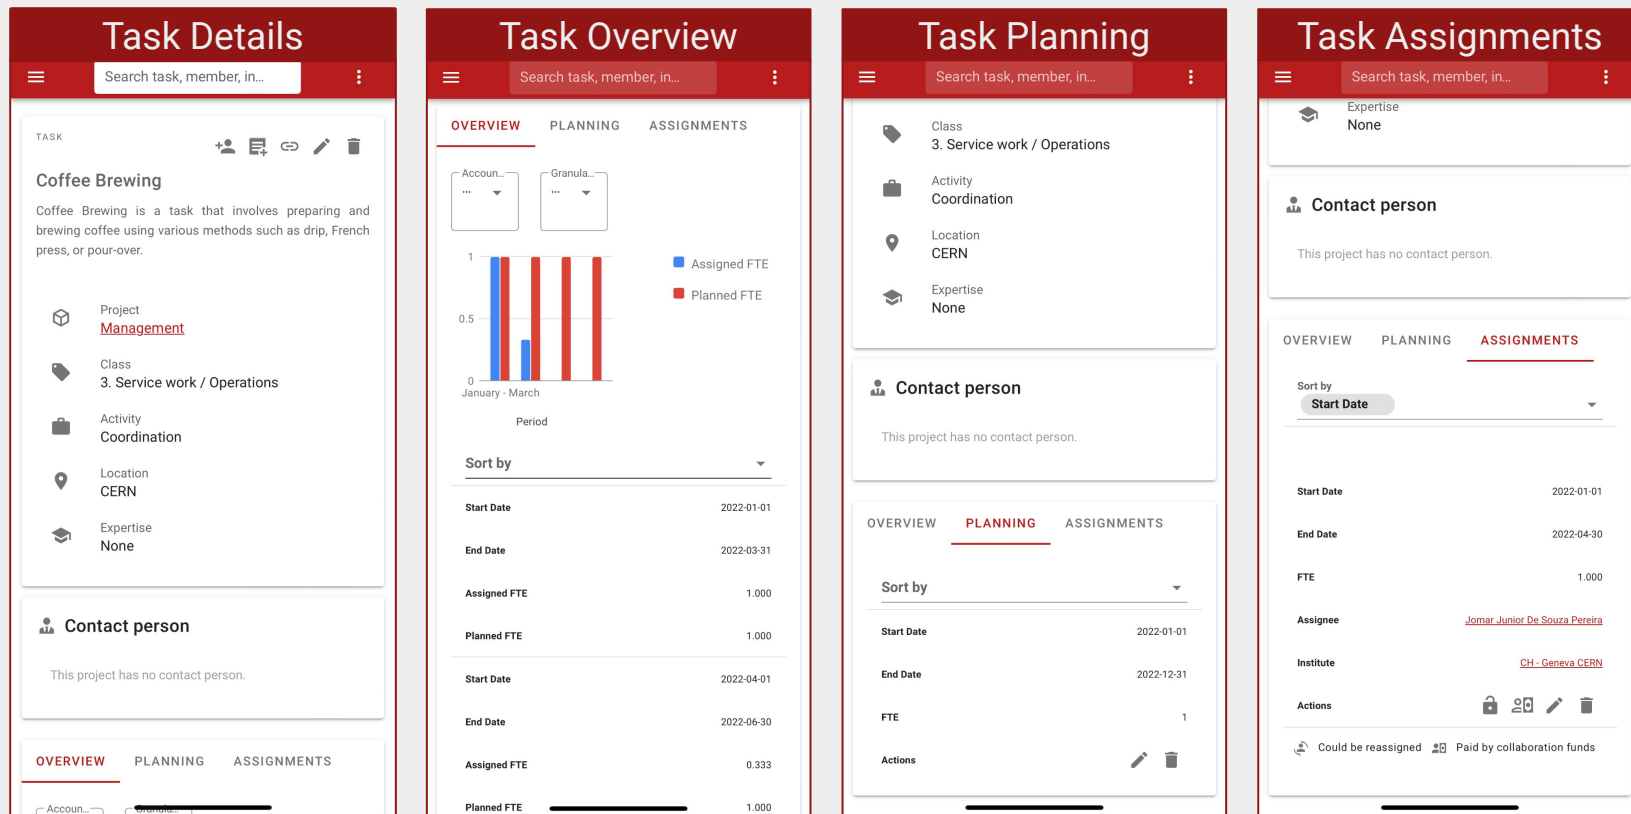

- Clean and user-friendly interface.
- Quick and responsive.
- Respects experiment visual identity.

# Features

# Task Management

# Year Planning

# Implementation

# Back-end architecture

## Practices

### Encapsulation

*Protection from outside world.*

### Business rules

*Separated and well defined.*

### Adapter

*Morph any entry to a standard command.*

## Results

### Flexibility

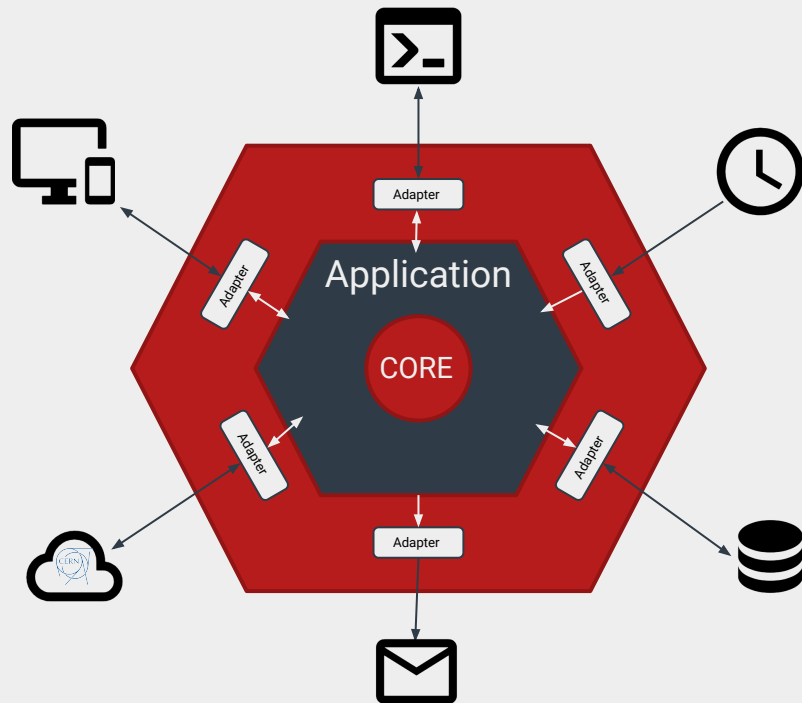

### Easy maintenance and testing

### Newcomer-friendly

## Hexagonal structure

# Contexts

## Self-contained

*No dependencies between contexts, with their own:*

Task

Rules

Actions

Entities

Which leads to:  $\infty$   

Accounting

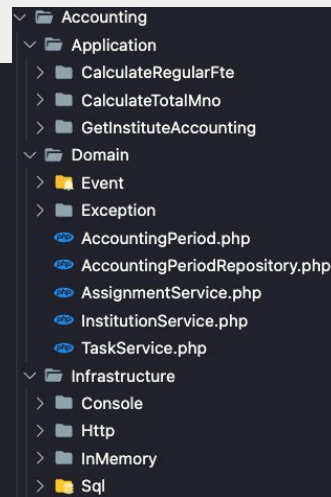

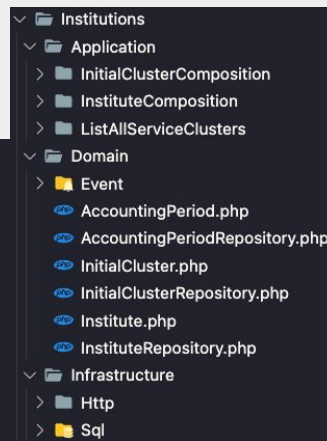

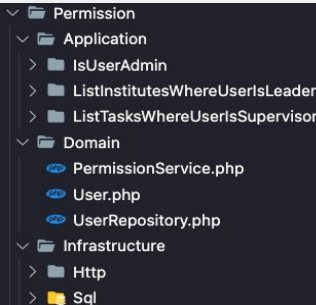

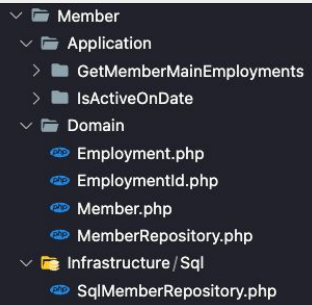

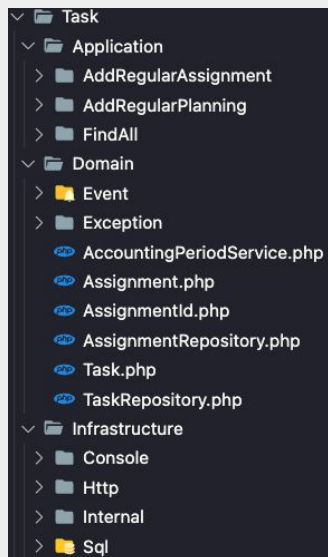

Institution

Member

Permission

# Future developments

## **Dockerization**

*Migrate to containerized environments.*

## **Continuous deployment**

*Remove the time spent on manual deployments.*

GitLab

## **Advanced search**

*More options for searching the dataset.*

*T5 - Glance Search Interface*

*May 9th, 2023 - 02:30 pm*

## **PHP Version 8^**

*Stop using older versions of PHP.*
