

Session Program

Sep 24 - 29, 2023

25th International Spin Symposium (SPIN 2023)

Joint Nuclear/Heavy Ion

Durham Convention Center

Tue, September 26

11:00 AM

Joint Nuclear/Heavy Ion

Session | **Location:** Durham Convention Center, Junior Ballroom C | **Convener:** Ian Cloet

11:00 - 11:30

Measurements of Vector Meson Global Spin Alignment in Heavy-Ion Collisions at RHIC (Invited Talk)

Speaker

Gavin Wilks

11:30 - 11:55

Transverse Λ and anti- Λ Hyperon Polarization Measurements at LHCb

Speaker

Cynthia Nunez

11:55 - 12:20

Studying high p_T momentum azimuthal anisotropies in unpolarized proton-proton collisions using transverse momentum dependent (TMD) parton distribution and fragmentation functions

Speaker

ismail souidi

12:20 - 12:30

Discussions

12:30 PM
