

# Welcome to HUGS 2023

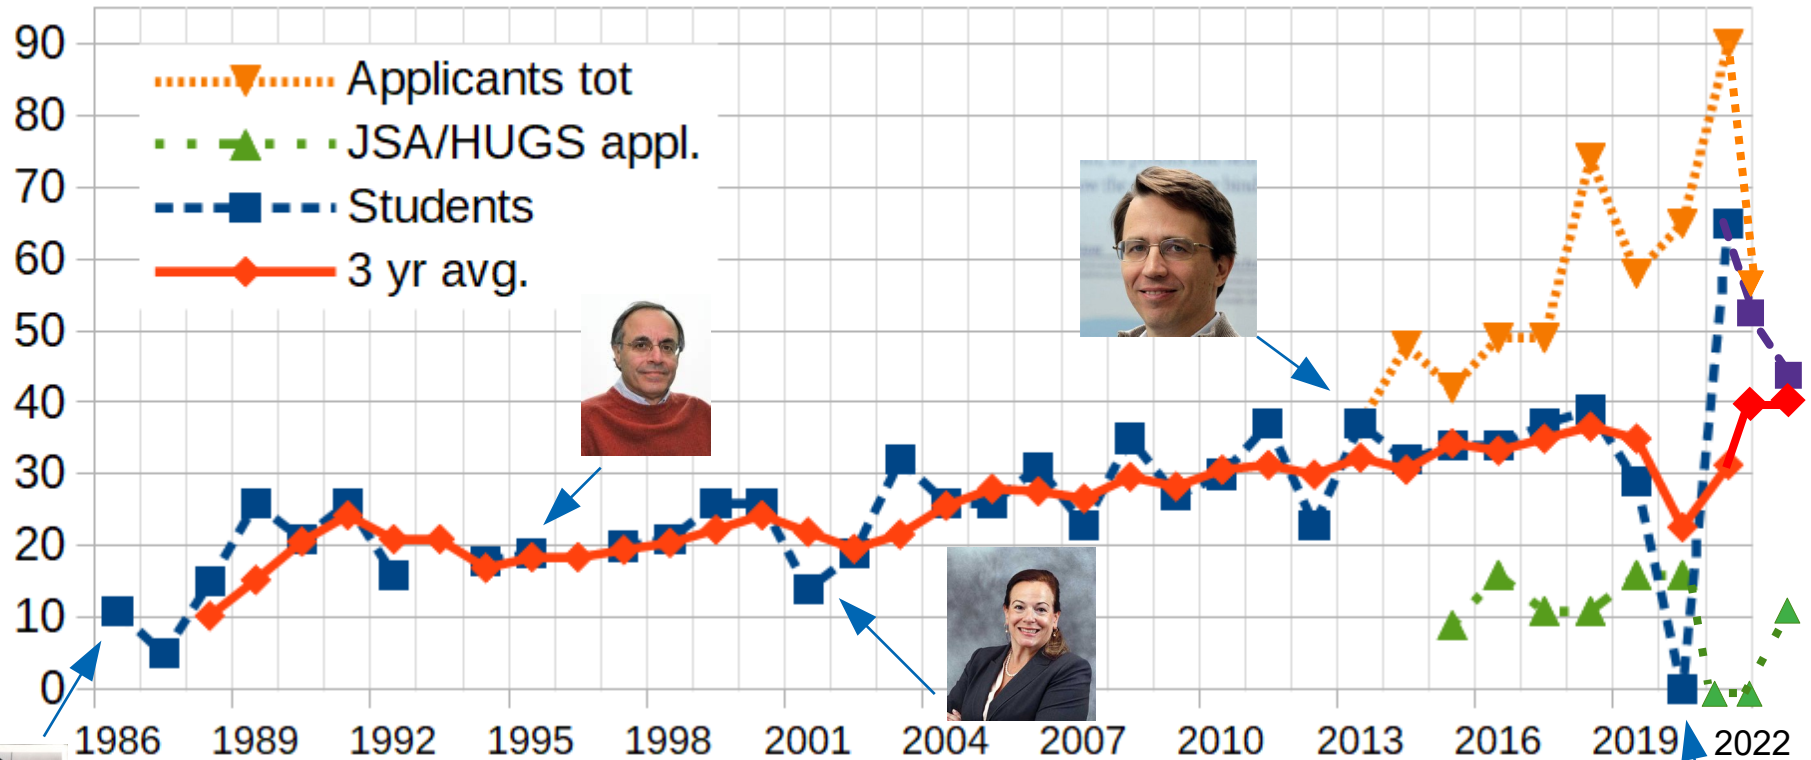

Alberto Accardi  
(Hampton U. and Jefferson Lab)

Caroline Costa,  
Glòria Montaña  
(Jefferson Lab)

# A long history

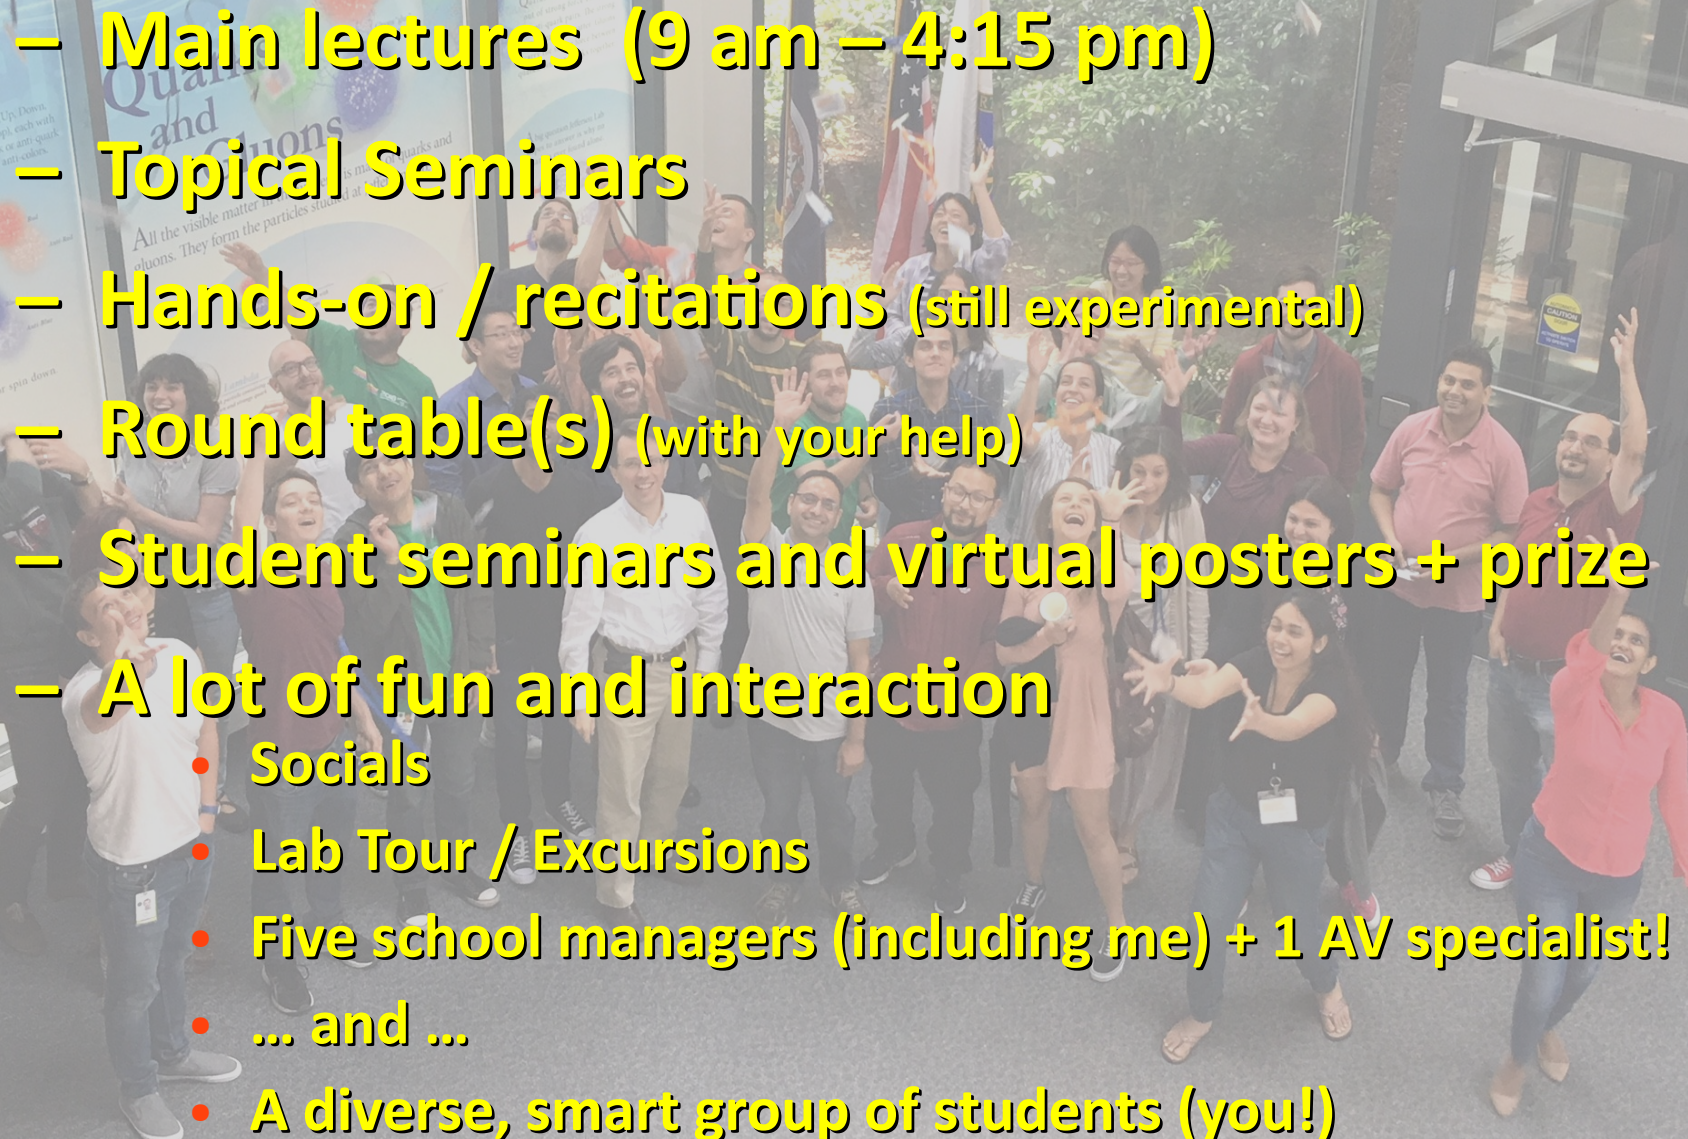

## HUGS participants

Total # students: 983

9-years average: 34 students/year  
(Last 2 years added hybrid option)

# Elements of HUGS

- 
- Main lectures (9 am – 4:15 pm)
  - Topical Seminars
  - Hands-on / recitations (still experimental)
  - Round table(s) (with your help)
  - Student seminars and virtual posters + prize
  - A lot of fun and interaction
    - Socials
    - Lab Tour / Excursions
    - Five school managers (including me) + 1 AV specialist!
    - ... and ...
    - A diverse, smart group of students (you!)

# Keep an eye or a ear on:

## □ The HUGS 2023 web page

- Detailed info on all school elements
- Seminars and Poster Info coming soon

## □ Slack:

- Most school announcements
- Discussions, chats
  - Students, lecturers, organizers

**Participate, engage**

**→ Make it even better!**

## □ The (evolving) program on Indico

- This is the official school timetable

## □ Live announcements in the classroom

# Remote platforms

## □ Zoom:

- Main lectures, live streamed
- Remote participants: raise hands, ask questions, write in chat

## □ Gather:

- Poster session
- Some recaps with lecturers (?)
- Possibly more

## □ Slack:

- off-line physics discussion, interactions
- #social, #photos, ...

# Weather

## □ Usually:

- Hot and humid outside
- Freezing inside (heavy air conditioning in most public spaces)
- Usually mostly sunny, but can rain

## □ Suggestion:

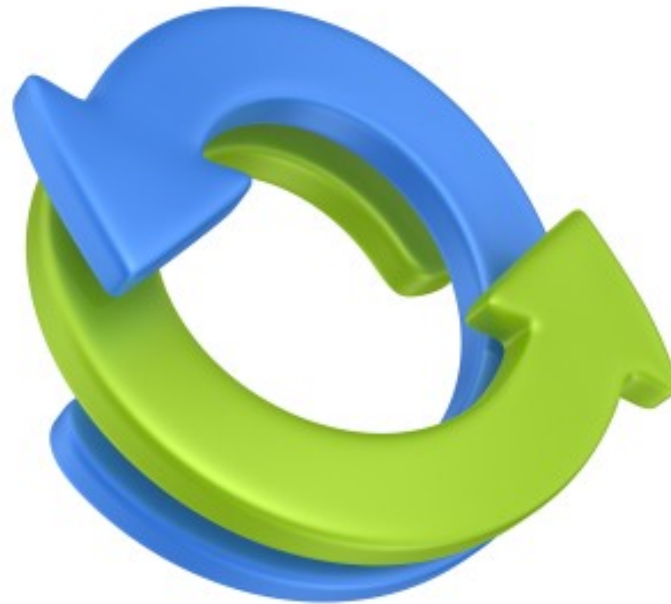

- Bring sweater, light jacket
- Sunscreen

## □ Attention:

- **There are ticks in the woods** → may be good to have bug repellent

# A partnership

**Students**

**Organizers  
(and lecturers)**

**Enjoy your next 3 weeks!**

**(and hang out a little longer now with us)**

**→ questions ? ←**
