

# 2024 Workshop on Polarized Sources, Targets, and Polarimetry

## Friday, September 27, 2024

### Neutrons - Cebaf Center Auditorium (1:50 PM - 3:30 PM)

-Conveners: Josh Pierce

time	[id] title	presenter
1:50 PM	[85] Spin Transport for the PSI n2EDM Experiment	CRAWFORD, Christopher
2:10 PM	[64] The pNab experiment and the quest for ever better neutron beam polarization	BAESSLER, Stefan
2:30 PM	[91] Characterizing the AFP Spin Flipper for the Nab Experiment	GODRI, Rebecca
2:50 PM	[102] Polarized neutron pseudomagnetic precession in polarized $^3\text{He}$ and (associated) precision NMR measurements in SEOP cells	SAMIEI, Sepehr
3:10 PM	[105] Searching for Exotic Polarized-Electron Polarized-Neutron Interactions in Polycrystalline Terbium Iron Garnet Using Slow Neutron Polarimetry	LOPEZ, Krystyna
