

2024 Workshop on Polarized Sources, Targets, and Polarimetry

Friday, September 27, 2024

Polarized Electron Sources IV - Cebaf Center Auditorium (3:50 PM - 5:10 PM)

-Conveners: Eric Voutier

time	[id] title	presenter
3:50 PM	[47] Practical Considerations when Using Low Carbon Steel for Extreme High Vacuum Applications	AL-ALLAQ, Aiman
4:10 PM	[77] Preparation of MOCVD-grown Photocathodes containing a Strained GaAs/GaAsP Superlattice	BLUME, Greg
4:30 PM	[49] Polarized positrons at Ce+BAF	USHAKOV, Andriy
4:50 PM	[101] Liquid metal-based polarized positron generation benchmark using the GEANT4 toolkit (via Zoom)	LIZARRAGA-RUBIO, Victor Manuel
