

# CLAS AI Group - Discussion

14<sup>th</sup> of March 2024

# CLAS AI Group

## Aims:

- Establish standard steps for AI/ML analyses (eg reviews of models, training samples, validation, systematics...).
- Training opportunities, forum for feedback from experienced AI/ML practitioners.
- Advertise existing analyses and software, create a common knowledge base, avoid re-inventing the wheel.
- Identify opportunities for AI/ML at CLAS12 – space for communication with detector experts, physics working groups and run groups.
- Enhance communication with JLab Data Science Group

## Suggestions?

## When ?

Once a month, take the Software Working Group meeting timeslot on Thursdays
