

**GHP2025 Sunday, March 16, 2025**

<i>Sun 09:00 - 10:40</i>	<b>J/Psi production</b>	<b>Room 202A, CHAIR: Latifa Elouadrhiri</b>
<i>09:00 - 09:25</i>	J/psi photoproduction near threshold in CLAS12	Mariana Tenorio (Old Dominion University)
<i>09:25 - 09:50</i>	J/ψ Near-threshold Photoproduction on the Proton and Neutron at CLAS12	Richard Tyson (Jefferson Lab)
<i>09:50 - 10:15</i>	SpinQuest J/ψ TSSA Study via Newly-built Polarized Target Assembly at Fermilab	Vaniya Ansari (Mississippi State University)
<i>10:15 - 10:40</i>	Machine Learning approach to determine the transverse single spin assymetry in J/ψ production in SpinQuest experiment	Chatura Kuruppu (New Mexico State University)
<i>Sun 10:40 - 11:00</i>	<i>coffee break</i>	
<i>Sun 11:00 - 12:40</i>	<b>Gravitational Form Factors</b>	<b>Room 202A, CHAIR: Richard Tyson</b>
<i>11:00 - 11:25</i>	GFF-Quarks experiment	Latifa Elouadrhiri (Jefferson Lab)
<i>11:25 - 11:50</i>	Gravitational Form Factors in GPD Models	Yuxun Guo (Lawrence Berkeley National Lab)
<i>11:50 - 12:15</i>	Gravitational Form Factors in Holographic QCD	Kiminad Mamo (William and Mary)
<i>12:15 - 12.40</i>	Do gravitational form factors describe forces inside hadrons?	Adam Freese (Jefferson Lab)
<i>Sun 12:40 - 14:10</i>	<i>lunch break</i>
