

Physics Opportunities at an Electron-Ion Collider XI

Monday, February 24, 2025

Parallel: Parallel 1a - Graham Center 140 (4:10 PM - 5:55 PM)

time	[id] title	presenter
4:10 PM	[33] Deeply virtual production of a phi meson at threshold	SCHOENLEBER, Jakob
4:25 PM	[19] A new look to azimuthal modulations and extraction of generalized parton distributions	Dr YU, Zhite
4:40 PM	[44] Gravitational form factors in NNLO QCD and hadron mass decompositions	TANAKA, Kazuhiro
4:55 PM	[40] Gluon Saturation Effects in Exclusive Heavy Vector Meson Production	PENTTALA, Jani
5:10 PM	[11] Unveiling chiral-odd dimeson generalized distribution amplitudes	Prof. SZYMANOWSKI, Lech Dr BHATTACHARYA, Shohini
5:25 PM	[29] Quark and Gluon GPD Global Analysis with DVCS and DVMP at NLO	ASLAN, Fatma
