Graduate Student and PostDoc Association Update

Kate Evans
March 2025

Jefferson Lab

GSPDA Purpose and Goals at JLab

- **Promote collaboration** across disciplines at the lab

- **Organize** educational workshops and seminars

- **Help** new students and postdocs integrate into the workflow at the lab

- **Create community** and safe spaces

- Provide **help and documentation**
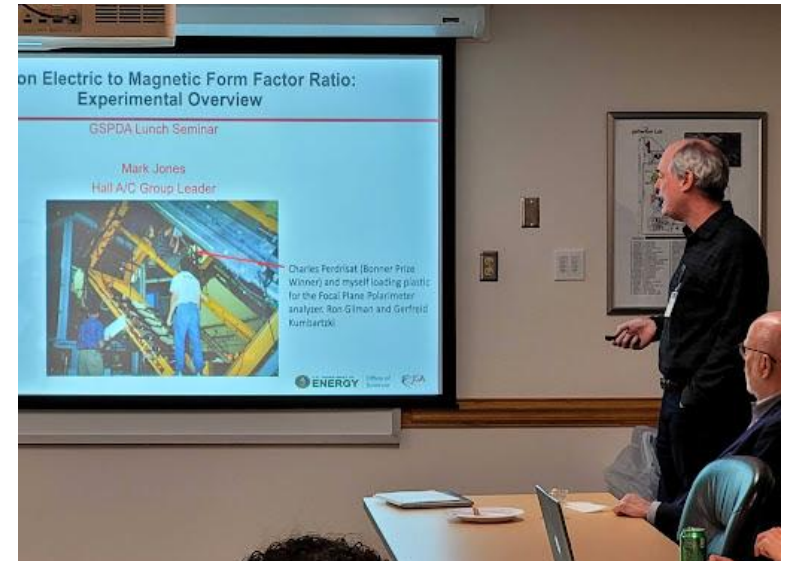

- Plan **social events**

Ongoing Initiatives

Monthly Lunch Seminars
Presentations from scientists in the lab
Speakers from multiple departments

Check out our seminar archive!

Social Events (No Funding Required)

Upcoming Projects

Yearly New User Computer Workshop

- Organized alongside SciComp
- Aimed at new users who want to work on the JLab computing farm
- Standard hands-on examples and lectures for computing basics
- Extra lectures and hands-on session for special interest topic

10-week Career Workshop

- Based on Stony Brook's "PhD Career Ladder Program"
- Currently being run by Cameron Clarke
- Hopefully this can be done every year!

PHD CAREER LADDER PROGRAM
STONY BROOK UNIVERSITY

Monthly Spotlight

MONTHLY GRADUATE STUDENT/POSTDOC
SPOTLIGHT

We are excited to launch a new section in Jefferson Lab's weekly emails to feature a graduate student or postdoc each month!

Submit your information for a chance to be featured in the future.

Please complete the following questionnaire so we can create your personalized flyer. *Please send the completed form to* **lorelei@jlab.org**

For more information:

- https://www.jlab.org/education/gspda

- https://gspda.jlab.org/wiki/index.php/Graduate_Student_and_PostDoc_Association

We are recruiting!!

If you are interested, please feel free to attend our monthly meetings (starting up again in April) or reach out on Slack to me (Kate Evans) or our postdoc president (Sara Liyanaarachchi)
