Meeting

Recap

Pizza ! Thanks Will & Jennifer!

Welcome introduction by Will, Bryan & Raffaella.

List of webpage links to find most of the useful information about the collaboration.

Several issues brought up to be discussed with CCC:

- Workshops during collaboration meetings such as Iguana, containers, Linux/Jlab tools are very helpful, can we do more (eg on the Monday before collaboration meetings)?
- JLab email removal disproportionately affects S&P as we change institutions more. These changes need to be communicated better to S&Ps and we'd appreciate more guidance.
- Easily accessible and clear guidance for shifts and travel to JLab would be appreciated, and help S&Ps do a better job. Suggest having well documented guidelines that are linked to in email reminders for shifts. Would also appreciate clear knowledge of who are our JLab hosts.

Student & Postdoc community is happy overall!

Thanks Will!
